

Lab Safety and Etiquette

BE/EE/MedE 189a

Anne Kil

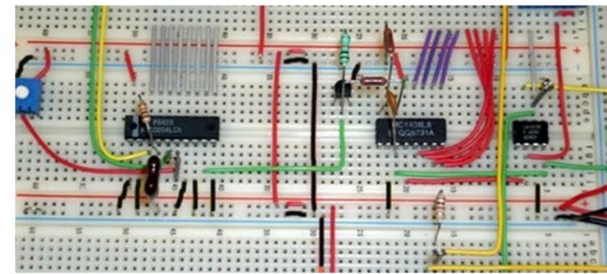

General Lab Safety

- No food or drinks in the lab
- Closed toe shoes recommended
- Avoid working in the lab alone
 - You may take your project home to work on it
- Don't work with wet hands
- Don't make changes to circuits without first switching off power
- Don't use wires that look obviously damaged
- Be careful of extension cables
- In case of emergency, call **Caltech Security** at **x5000** or **626-395-5000**

Lab Etiquette & Tips

- Be mindful of others' stations
- Components are shared resources—only take as many as you need
- Tidy wiring makes it easier to debug
- Modular breadboarding & labeling parts of your circuit

Good

Bad
